

# 2024 Income and Resource Limits for Medicaid and Other Health Programs

Public benefit programs (such as Medicaid or "Medical Assistance" as it is called in Pennsylvania) use the federal poverty income guidelines to determine who qualifies for coverage. The 2024 guidelines were published January 17, 2024. The effective date of the limits listed below varies and may not take effect until March for some of the programs.

**Not all income and resources count toward the limits below.** Please see the Resource Library at [www.phlp.org](http://www.phlp.org) for more details about qualifying for the programs listed below, including income and resource disregards that may apply.

MA Category	Description	2024 Monthly Income Limit	2024 Resource Limit
